”Hunger is not a global problem, it is human error”

*Gardenia Bittercourt*

Our company was founded with a singular purpose: to help combat hunger around the world. We are committed to providing dehydrated food options as a means of alleviating the suffering of those affected by starvation. Our mission is to provide nourishing meals to those in need and to ensure that no one goes hungry.

### PURPOSE AND DIRECTION

**Our mission is to provide high-quality, readily available food to people affected by natural disasters, conflict, and poverty. We will work tirelessly to ensure that our food aid is delivered quickly and efficiently, and that it meets the nutritional needs of those we serve. Our commitment to sustainability and ethical sourcing practices will guide our efforts to make a positive impact on the environment and the communities in which we operate. Through collaboration with our partners and stakeholders, we will continuously innovate and improve our services to achieve our ultimate goal of ending hunger worldwide.**

## GOALS AND ASPIRATIONS

---

Our vision is a world where no one goes hungry, where every person has access to nutritious and culturally appropriate food, and where food aid is provided with dignity and respect. We aim to be a leading supplier of humanitarian food assistance, working with local communities and partners to ensure that our food reaches those who need it most. We believe in sustainable and innovative solutions to food insecurity, and we are committed to reducing the impact of emergencies and conflicts on food systems.

## "FEEDING THE WORLD WITH DEHYDRATED FOOD: FASTER, EASIER, AND MORE EFFICIENT"

We will work with local farmers to ensure a consistent supply of high-quality produce, while also providing them with training and resources to improve their yields.

Our goal is to provide affordable and nutritious food to those who need it most, while also creating jobs and supporting the local economy. Through partnerships with government agencies, we aim to reach as many communities as possible and make a positive impact on the lives of those affected by hunger in DR Congo.

Dehydrated food is an innovative solution to the problem of hunger in DR Congo as well as in other regions of Africa.

By dehydrating food, it can be stored for a long time without losing its nutritional value, making it an ideal solution for areas where access to fresh food is limited. Our business plan involves setting up a food distribution / processing plant in DR Congo, that will source locally grown produce and dehydrate it for distribution to those in need.
